	Components	Running time
Timed component(s):	!!!new ((hussyfan)) russian 8 yo blond girl pthc share(2) de mi ecuatoriana.wmv	1:22
Total running time:		1:22

Summary of reasons for decision:

This computer moving image file is deemed to be objectionable under s3(2)(a) of the Films, Videos, and Publications Classification Act 1993 (FVPC Act) because it promotes and supports the exploitation of children for sexual purposes. It depicts the sexual abuse of a young girl by a man. The nature of the abuse is such that this file also promotes and supports sexual violence and the infliction of extreme cruelty. The only purpose of the file is sexual arousal and gratification of those with a sexual interest in young girls. Material such as this presents children as sexually available and appropriate subjects for adult sexual attention and encourages and legitimises such an interest. The

digital format allows the image to be easily disseminated among likeminded people. This classification interferes with the right to freedom of expression as provided by the New Zealand Bill of Rights Act 1990. However, the classification is consistent with Parliament's intention that publications falling under s3(2) of the FVPC Act are deemed to be objectionable. This reflects the concern of a free and democratic society to protect children from exploitation and harm.
